

CoolTex™ Ag 13" Knee Sleeve with Stays

Open patella knee sleeve featuring CoolTex Ag fabric for breathable comfort

CORFLEX®

Designed for life.

CORFLEXGLOBAL.COM

The CoolTex Ag 13" Knee Sleeve with Stays features a slip-on design that provides support and compression to the knee and surrounding musculature. Brace features dual bilateral flex stays to help prevent sleeve rollover during activity.

The sleeve is manufactured from CoolTex Ag fabric to allow for easy flow of air, transfer of moisture and antimicrobial protection. Lightweight and breathable material allows for greater comfort during extended wear. Available in both open and closed popliteal, in eight sizes, XS through 4XL.

- A fighting layer of defense that continuously inhibits the growth of microbes, helping fabrics last longer and limiting odor formation.
- Breathable, open-mesh design promotes the transfer of heat and moisture away from the skin keeping you cool and dry.
- Nylon and spandex yarns combine to deliver superior compression and support while being extremely lightweight.

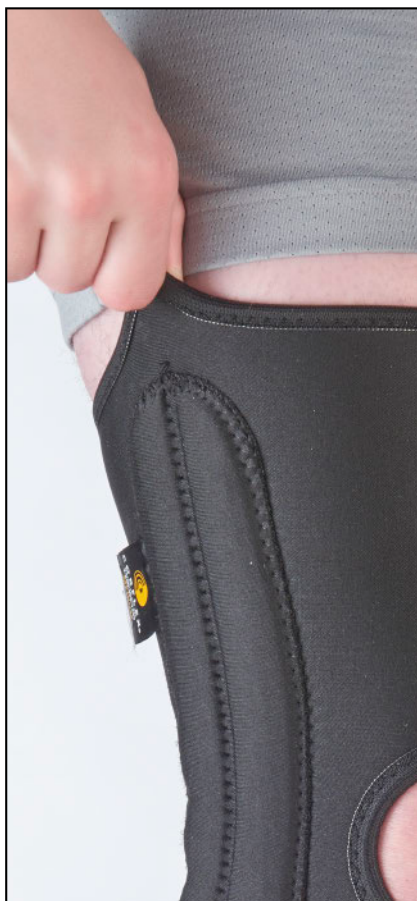

ADDITIONAL FEATURES:

- 13" sleeve provides support and compression for the knee with flex stays to prevent roll-over; open patella aids in tracking
- Indicated for moderate knee strains or sprains, knee injuries, arthritis and post-op rehab
- Manufactured from antimicrobial CoolTex Ag, a lightweight, breathable neoprene alternative; plastic flex stays

CoolTex™ Ag 13" Knee Sleeve with Stays

Open popliteal design promotes greater comfort, especially during activities that involve frequent knee flexion (also available in closed popliteal).

Brace tabs assist with application and adjustment during wear.

Dual flex stays are lightweight and help prevent sleeve rollover during activity.
